

DEFENCE SECTOR QUAD CHART

PROUDLY 100% AUSTRALIAN OWNED & OPERATED

Able Industries Engineering Capabilities:

- 5,000 square metre production area across multiple sites
- Multiple qualified specialist project managers and engineers
- Engineering design and drafting (SolidWorks & Solid Edge)
- CAE capability including linear and non-linear F.E.A.
- Rapid prototyping including portable 6 axis CMM
- Production manufacturing including 2D & 3D CAM
- Highly specialised welding capability including ballistic armour, high nickel alloys, ferrous and non-ferrous metals
- Niche manufacturing, assembly and integration
- Military spec spot welding (0.5mm – 12mm): ferrous / non-ferrous
- Multiple CNC brake press up to 300T, 9 Axis, 6m
- Customised jigging
- Fiber laser: 3D tube (10m x 400dia.), 2m x 4m x 25mm Plate and Sheet
- CNC 2m x 5m high speed turret punch (tapping, forming)
- Precision fabrication using industry-leading multi-axis robotic welding (500A) automation systems
- Military spec blast and painting facility (APAS, DPP, CARC)

Discriminators:

- Over 49 years of Defence and commercial engineering experience
- Complete engineering/project solutions and project management
- System engineering capabilities
- Latest CNC equipment provides repeatability and cost effectiveness over short or large run production quantities
- Degree qualified project managers ensure projects are on time and on budget
- Network of strategic supply chain partners (over 49 years of trusted associations)
- Experience working to ASDEFCON requirements
- Mature integrated Quality Management System (QMS)
- Continuous quality audit of suppliers
- Entire business integrated ERP system
- Responsive and flexible to changing and emerging requirements (RAPID)
- Diverse and Capable

Key Customers:

- CASG (Australian Department of Defence)
- Thales Australia
- BAE Systems Australia/ ASC
- Supacat Australia
- Leonardo (Selex)
- Navantia
- Babcock
- Lockheed Martin

Certifications and Awards:

- Recognised Defence Supplier
- ISO 9001:2015 Certified (continuous since 1990)
- ISO 14001 Certified
- ISO 45001 Certified
- DIN 2303 Q2/BK1 Certified
- AS/NZS ISO 3834-2 Certified
- Finalist – Victorian Manufacturing Hall of Fame Awards 2018
